

Enterprise Relational Database Excellence Service

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Relational Database Excellence Service

Service Description

Comprehensive design, optimization, and management of enterprise-grade relational databases for organizations seeking robust, secure, and scalable data platforms.

Features

- Strategic assessment of current database architecture and health
- Custom design and engineering of relational database schemas
- Performance optimization and query tuning for critical workloads
- Robust backup, disaster recovery, and high availability planning
- Migration of legacy systems to modern relational platforms
- Security hardening and compliance alignment with industry standards
- Ongoing monitoring and proactive incident response
- Integration of relational databases with business applications
- Capacity planning and elasticity scaling for growth
- Comprehensive governance and lifecycle documentation

Benefits

- Unlock better decision-making with reliable data foundations
- Minimize downtime through resilient, high-availability design
- Accelerate application performance and user experience
- Lower long-term costs with optimized infrastructure
- Ensure data integrity and regulatory compliance at all times
- Seamlessly adapt databases as business needs evolve
- Mitigate risks with proactive monitoring and rapid response
- Enable secure data sharing and cross-functional analytics
- Streamline database migrations and modernization projects
- Gain peace of mind with expert lifecycle support

Constraints

Requires client access to existing data sources; limited to relational database technologies.
