

Intelligent Storage Infrastructure Optimization Consultancy

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Storage Infrastructure Optimization Consultancy

Service Description

Expert-led consulting to modernize, manage, and optimize enterprise storage environments for organizations facing complexity, growth, or transformation.

Features

- Comprehensive assessment of existing storage infrastructure architecture
- Vendor-neutral evaluation of device and software compatibility
- Tailored design for scalable storage management solutions
- Development of automation workflows for device provisioning
- Policy-driven data tiering and lifecycle management strategy
- Advanced monitoring and predictive analytics integration
- Risk analysis and business continuity planning
- Performance optimization for storage devices and networks
- Seamless integration with hybrid or multi-cloud architectures
- Comprehensive training for storage management best practices

Benefits

- Reduce operational costs through targeted storage efficiencies
- Enable rapid scaling to meet evolving business demands
- Enhance data availability and minimize downtime risk
- Simplify management of diverse storage device ecosystems
- Maximize ROI on existing and future storage investments
- Ensure alignment with compliance and governance requirements
- Accelerate time-to-value from new storage technologies
- Improve visibility with actionable analytics and reporting
- Decrease manual intervention with robust automation tools
- Empower IT staff with up-to-date expertise and training

Constraints

Requires access to infrastructure documentation, existing platforms, and stakeholder involvement throughout engagement.
