

IoT Event Intelligence Application Platforms

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

IoT Event Intelligence Application Platforms

Service Description

Comprehensive consulting and deployment of IoT-centric event processing platforms for organizations seeking real-time insight, automation, and integration across connected environments.

Features

- End-to-end IoT event platform design and implementation
- Integration of diverse sensor and device data streams
- Real-time event stream processing and analytics
- Customizable application frameworks for swift solution development
- Event-driven automation for smart environments
- Scalable cloud-native deployment architecture
- Cross-system orchestration and API management
- Security architecture and risk mitigation for IoT ecosystems
- Centralized monitoring and predictive maintenance capabilities
- Ongoing optimization and managed support services

Benefits

- Accelerate digital transformation through intelligent IoT automation
- Unlock real-time business insights from connected device data
- Reduce operational costs by automating manual processes
- Increase agility with modular, scalable solution frameworks
- Enhance customer experience through responsive applications
- Strengthen security posture with expert-built architectures
- Facilitate rapid integration with legacy and new systems
- Enable predictive maintenance and minimize downtime
- Enhance business resilience with 24/7 monitoring
- Drive competitive advantage through actionable event intelligence

Constraints

Requires compatible IoT infrastructure, stable network connectivity, and stakeholder alignment for integration.
