

Cloud Skills Accelerator: Optimisation-Focused Training

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Skills Accelerator: Optimisation-Focused Training

Service Description

Comprehensive cloud training designed to empower IT teams with advanced optimisation skills, enhancing efficiency and value. Ideal for organisations seeking to maximise their cloud investments.

Features

- Tailored curriculum for cloud service and function optimisation best practices
- Interactive workshops led by certified cloud optimisation specialists
- Hands-on labs simulating real-world cloud operational scenarios
- Role-based training paths for administrators, developers, and operations staff
- Performance benchmarking exercises to identify and close skills gaps
- Actionable toolkits for ongoing service efficiency improvements
- Assessment modules to validate skill acquisition and application
- Access to knowledge base and community of cloud optimisation experts
- Guidance on integrating automation and monitoring into workflows
- Follow-up support to reinforce learning and measure business impact

Benefits

- Enhances team capability to optimise cloud resource utilisation
- Accelerates adoption of cloud best practices across the organisation
- Reduces operational costs via improved workflows and automation
- Drives continuous service improvement and measurable business outcomes
- Fosters a culture of innovation and proactive problem-solving
- Minimises risk of cloud misconfiguration and inefficiency
- Improves compliance by embedding governance into daily operations
- Increases agility by equipping teams to respond to change swiftly
- Boosts employee confidence and engagement with cloud technologies
- Maximises return on existing and future cloud investments

Constraints

Requires participant access to client cloud environments and minimum 10 attendees per session.
