

Intelligent Automation Platform Enablement

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Automation Platform Enablement

Service Description

Empowering enterprises to accelerate digital transformation by deploying and integrating robotic process automation on robust cloud application platforms.

Features

- Comprehensive assessment of automation opportunities and business readiness
- Design and deployment of scalable RPA architecture on leading PaaS platforms
- Integration with existing enterprise applications and data sources
- Custom automation workflow development and orchestration
- Bot lifecycle management, monitoring, and advanced analytics
- Security and compliance controls tailored to industry standards
- Change management and user enablement for seamless adoption
- Ongoing performance optimization and continuous improvement initiatives
- Cross-platform RPA toolset selection and best practice implementation
- Support for hybrid, multi-cloud, and on-premise application environments

Benefits

- Accelerates business process efficiency and reduces manual workload
- Improves accuracy and consistency through elimination of human error
- Enhances scalability of automation as business needs evolve
- Drives cost savings with rapid automation deployment
- Fosters enterprise agility for faster digital transformation
- Minimizes compliance risks via built-in governance controls
- Empowers employees to focus on higher-value tasks
- Delivers actionable insights with advanced automation analytics
- Supports seamless integration with existing IT investments
- Future-proofs automation strategy in a cloud-centric marketplace

Constraints

Requires access to client's cloud environment and existing application stack for integration.
