

Secure Enterprise Managed File Transfer Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Secure Enterprise Managed File Transfer Enablement

Service Description

A premium consulting solution for enterprises seeking to optimise, secure, and automate business-critical file exchanges with partners and ecosystems.

Features

- Robust integration with diverse business systems and applications
- Policy-driven automation for file exchange processes
- End-to-end encryption of files in transit and at rest
- Centralised real-time monitoring and audit logging
- Support for multiple protocols and file formats
- Automated exception handling and alerting mechanisms
- Role-based access controls for user and partner management
- Scalable architecture to accommodate evolving throughput needs
- Compliance reporting for industry standards and regulations
- 24/7 proactive operational support and incident response

Benefits

- Accelerates digital partner onboarding and collaboration initiatives
- Protects sensitive data exchanges from interception or loss
- Reduces manual intervention, lowering operational overhead
- Improves visibility and traceability of all file transfers
- Ensures regulatory adherence with automated compliance tools
- Facilitates rapid integration with legacy and modern platforms
- Enhances business agility through reliable automation
- Mitigates risk of data breaches and non-compliance penalties
- Supports business growth with scalable file transfer capabilities
- Empowers IT teams to focus on innovation, not troubleshooting

Constraints

Requires stable network connectivity, defined security policies, and integration points from all relevant business systems.
