

VisionEdge: Enterprise Computer Vision AI Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

VisionEdge: Enterprise Computer Vision AI Enablement

Service Description

A premium consulting service empowering enterprises to integrate, optimise, and scale computer vision AI applications for business transformation, targeting organisations seeking competitive advantage from visual AI capabilities.

Features

- Comprehensive readiness assessment for computer vision AI adoption
- Strategic use case discovery tailored to specific industry challenges
- Custom solution architecture leveraging leading AI platforms
- Integration with existing enterprise applications and workflows
- End-to-end AI model development and training support
- Deployment orchestration for scalable vision AI solutions
- Governance and compliance alignment with data privacy standards
- Performance monitoring and continuous improvement framework
- User training and change management for seamless adoption
- Vendor-neutral advisory for platform and tool selection

Benefits

- Accelerates digital transformation with advanced visual intelligence
- Unlocks new revenue streams via AI-driven operational insights
- Reduces manual errors and increases process automation
- Empowers faster, data-driven decision-making across departments
- Improves customer experiences with intelligent image analysis
- Strengthens compliance through robust data governance
- Drives cost savings by optimising resource allocation
- Mitigates AI project risks with proven advisory expertise
- Enhances workforce skills in cutting-edge AI technologies
- Delivers measurable ROI from AI investments within months

Constraints

Requires access to structured image/video data and aligned stakeholder commitment.
