

Seamless B2B Integration & Collaboration Accelerator

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Seamless B2B Integration & Collaboration Accelerator

Service Description

End-to-end consulting and managed service enabling efficient, secure, and scalable business-to-business integration for enterprises seeking to digitize and streamline their partner networks.

Features

- Comprehensive assessment of existing integration landscape and partner ecosystems
- Design and implementation of robust B2B middleware architectures
- Automated workflow orchestration between multiple enterprise systems
- Secure, real-time data exchange with trading partners via industry-standard protocols
- Managed onboarding and enablement of new business partners
- Monitoring, analytics, and reporting of B2B transactions and collaboration flows
- Integration of legacy systems with modern cloud and SaaS applications
- Policy-based access control and compliance management
- Scalable cloud or hybrid deployment options tailored to business needs
- 24/7 support and proactive maintenance for critical B2B integrations

Benefits

- Accelerates digital transformation across business partner networks
- Reduces manual intervention and operational inefficiencies in B2B transactions
- Mitigates risks and ensures regulatory compliance through secure workflows
- Improves speed-to-market with rapid partner onboarding and integration
- Enhances visibility and control of intercompany data exchanges
- Supports business agility through scalable, adaptable integration frameworks
- Minimizes disruption by bridging legacy and modern technology stacks
- Unlocks new revenue streams via streamlined collaboration with partners
- Boosts customer and partner satisfaction with seamless interactions
- Lowers total cost of ownership through managed operations and automation

Constraints

Requires stakeholder alignment, appropriate access to partner systems, and readiness to modify existing workflows.
