

NextGen Object Storage Strategy & Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

NextGen Object Storage Strategy & Enablement

Service Description

Comprehensive consulting service helping organizations implement scalable, object-based software-defined storage for modern data needs.

Features

- End-to-end assessment of current storage environment and future requirements
- Design of a scalable, software-defined object storage architecture
- Integration planning with cloud, hybrid, and on-prem systems
- Guidance on API-driven storage for application compatibility
- Implementation roadmap tailored to business objectives
- Data lifecycle and retention policy consulting
- Automated scalability planning for capacity and performance
- Resilience and disaster recovery architecture design
- Security and compliance alignment for storage solutions
- Staff enablement through tailored training and documentation

Benefits

- Unlock unlimited scalability for rapidly growing unstructured data
- Reduce costs by eliminating traditional storage hardware dependencies
- Accelerate application development with modern storage APIs
- Improve business agility with flexible, policy-driven storage management
- Future-proof storage investments with vendor-agnostic architecture
- Enhance data durability and availability for mission-critical workloads
- Ensure regulatory compliance with tailored data governance frameworks
- Simplify operations with automation and streamlined management tools
- Foster innovation by supporting cloud-native and AI-driven workloads
- Empower IT teams with best practices and ongoing knowledge transfer

Constraints

Requires client engagement with key IT stakeholders and access to existing storage infrastructure data.
