

Data Intelligence Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Data Intelligence Enablement

Service Description

A solution empowering government bodies to unify, enrich, and govern their critical master data. An ideal solution for organisations seeking actionable data insights.

Features

- Comprehensive master data assessment and mapping across business units
- Customised data integration workflows tailored to enterprise landscapes
- Deployment of advanced master data intelligence software solutions
- Automated data cleansing, standardisation, and enrichment processes
- Real-time anomaly detection and quality management dashboards
- Role-based access controls for secure data stewardship
- Seamless integration with legacy databases and cloud platforms
- Automated reconciliation and deduplication of key data entities
- Continuous improvement via analytics and AI-powered recommendations
- Full lifecycle support: strategy, migration, training, and optimisation

Benefits

- Achieve a single, trusted view of business-critical data assets
- Accelerate analytics initiatives with consistent, high-quality data
- Reduce manual reconciliation effort and operational costs
- Enhance regulatory compliance and auditable data governance
- Enable secure, governed data sharing across departments
- Strengthen decision-making with real-time data insights
- Minimise data silos and duplication enterprise-wide
- Increase agility for data-driven transformations
- Empower business users with self-service intelligence tools
- Drive sustained ROI from master data management investments

Constraints

Requires access to relevant data sources and stakeholder involvement for mapping.
