

Quality Assurance and Performance Testing

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Quality Assurance and Performance Testing

Service Description

Insight delivers comprehensive QA and performance testing to ensure flawless functionality, security, and scalability. Using manual and automated strategies, we validate software quality across all environments, detect bottlenecks, and optimise speed under load. Our agile approach guarantees reliable, high-performing applications that meet user expectations and industry standards

Features

- Manual Testing - functional, usability, and regression testing.
- Automated end-to-end, UI, and API testing.
- CI/CD-integrated automated test suites.
- Performance testing: ensure applications meet performance standards.
- Security testing: safeguarding data and product integrity at different levels.
- Usability, compatibility, reliability, and scalability testing
- Continuous QA Support - Embedded QA engineers within Agile delivery pods.
- Test reporting and defect management

Benefits

- Reduced Risk – Minimise defects and vulnerabilities before release.
- Cost Efficiency – Catch issues early to avoid expensive fixes later.
- Faster Time-to-Market – Streamlined QA accelerates delivery cycles.
- Improved Product Quality – Deliver robust, reliable, and user-friendly solutions.
- Enhanced Customer Satisfaction – Fewer bugs lead to better user experiences.
- Compliance Assurance – Meet industry standards and regulatory requirements.
- Scalability – QA processes that grow with your project needs.
- Continuous Improvement – Ongoing feedback loops for better performance.
- Optimised Performance – Ensure speed, stability, and scalability under load.
- Peace of Mind – Product is thoroughly tested and secure.
