

Seamless Data Migration & Protection Accelerator

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Seamless Data Migration & Protection Accelerator

Service Description

A premium consulting service for organizations needing secure, efficient systems and data migration, ensuring data integrity and minimal disruption during storage transitions.

Features

- Comprehensive assessment of legacy and target storage environments
- Strategic migration planning with risk and dependency analysis
- Automated and manual data migration execution for minimal downtime
- Integrated data replication to ensure continuous protection
- Real-time progress tracking dashboards for stakeholders
- Post-migration validation and integrity checks
- Customizable rollback and contingency strategies
- Compliance and security controls implementation throughout
- Detailed documentation and knowledge transfer sessions
- End-to-end project management with clear milestones

Benefits

- Accelerates digital transformation with minimal business disruption
- Ensures all data is protected and recoverable throughout migration
- Reduces migration risks via expert planning and execution
- Delivers regulatory compliance for sensitive or critical information
- Improves IT agility by modernizing storage infrastructure
- Provides complete visibility into migration status and outcomes
- Enables future-ready, scalable storage environments
- Minimizes downtime for users and business applications
- Empowers IT teams with documentation and hands-on knowledge
- Guarantees a single point of accountability throughout the project

Constraints

Requires source and target system compatibility; access to data and infrastructure stakeholders.
