

AI-Powered Enterprise Knowledge Discovery Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

AI-Powered Enterprise Knowledge Discovery Suite

Service Description

Unlock actionable insights from vast data using advanced AI search, tailored for enterprises seeking smarter, faster decision-making.

Features

- Natural language search across structured and unstructured data sources
- AI-driven semantic understanding and content relevance ranking
- Customisable knowledge graphs to reveal hidden connections
- Secure access controls and data privacy configurations
- Integration with major enterprise content repositories and platforms
- Automated extraction and summarisation of key insights
- Real-time analytics dashboards for knowledge usage trends
- Intelligent recommendations for information discovery and learning
- Scalable cloud-native deployment with enterprise-grade SLAs
- Ongoing training and change management for user adoption

Benefits

- Accelerates decision-making with instant, relevant knowledge retrieval
- Enhances productivity by reducing manual search time
- Enables deeper operational insights for innovation and strategy
- Improves knowledge sharing and collaboration across teams
- Strengthens compliance by supporting secure, audited access
- Adapts to evolving business questions through AI learning
- Minimises information silos with unified discovery tools
- Boosts employee experience with intuitive, AI-driven interfaces
- Supports scalable growth without infrastructure bottlenecks
- Future-proofs knowledge management with continuous AI enhancements

Constraints

Requires integration with existing data sources and content systems; enterprise license needed.
