

Comprehensive Information Protection & Data Security Consulting

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Comprehensive Information Protection & Data Security Consulting

Service Description

Expert-led service providing holistic information protection and data security for mid-large enterprises, addressing threats and compliance across infrastructure software environments.

Features

- In-depth risk assessment of existing data security posture
- Development of tailored information protection strategies
- End-to-end data classification and governance frameworks
- Deployment of advanced encryption and access controls
- Integration of data loss prevention technologies and policies
- Continuous monitoring for unauthorized data access
- Incident response planning and simulation exercises
- Regulatory compliance mapping and remediation planning
- Executive reporting with actionable security recommendations
- Employee awareness training on data protection best practices

Benefits

- Mitigates risk of costly data breaches and cyberattacks
- Ensures proactive compliance with evolving regulations
- Enhances trust with clients and partners through robust controls
- Reduces operational disruptions from security incidents
- Improves visibility into sensitive information lifecycle
- Empowers staff to maintain secure data handling practices
- Optimizes security investments for maximum ROI
- Facilitates safe adoption of cloud and hybrid technologies
- Delivers executive-level insights for informed decisions
- Strengthens resilience against insider and external threats

Constraints

Requires stakeholder engagement and access to infrastructure; scope excludes legacy unsupported systems.
