1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Service Offering

Service Description

Insight's AWS HCA Assess Service brings together a workload migration assessment, consultative workshops, and planning, and a migration readiness assessment into a complete detailed analysis report. Insight will evaluate your existing infrastructure and create an optimised cost and approach for migrating your workloads to the AWS cloud.

Service Overview

Our AWS HCA Assess offering is a strategic, structured service delivered by our AWS experts and designed to help organisations that need to build a business case for investment approval and planning the optimal route to the public cloud. The assessment evaluates your existing infrastructure and creates an optimised cost and approach for migrating your workloads to the AWS cloud. Insight's AWS HCA Assessment is a comprehensive service that includes workload migration assessment, consultative workshops, planning, and migration readiness assessment. By combining these services, we provide a complete and detailed analysis report that includes all the required information and fact-based data needed to create a business case and migration approach. This approach reduces the time and risk associated with a successful cloud migration.

Service Summary

Workload migration assessment delivered with multiple enterprise-class data collection and analysis tools.

- Project Mobilisation.
 - OLA Assessment.
 - Deliver Workshop to provide Collector tooling and setup requirements.
 - Collection Data including current host and licensing details.
 - Assist with Collector deployment.
 - Provide expert guidance and analysis for MSFT licensing and server workload hosting in AWS.
 - Full visibility of workloads, licensing requirements and optimised cost modelling.
