

Intelligent Data Lifecycle Optimisation & Archiving Services

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Data Lifecycle Optimisation & Archiving Services

Service Description

A consulting solution for enterprises seeking end-to-end data integration, lifecycle governance, and compliant archiving empowering secure, efficient, and intelligent data management.

Features

- Comprehensive data integration across disparate enterprise sources and platforms
- Automated archival workflow design for efficient data retention and retrieval
- Lifecycle policy definition aligned to regulatory and business requirements
- Secure transfer, storage, and destruction protocols to ensure data protection
- Metadata enrichment and management to boost search and analytics
- Seamless integration with cloud and on-premise environments
- Continuous monitoring, reporting, and optimization of archiving processes
- User access management and detailed audit trail capabilities
- Custom migration services for legacy and live data workloads
- Stakeholder workshops and change management for successful adoption

Benefits

- Reduces storage costs by automating data retention and disposal
- Ensures regulatory and internal compliance across all data assets
- Accelerates data-driven decision making through accessible archives
- Minimizes risk of data loss and exposure via secure protocols
- Improves user productivity with rapid data search and retrieval
- Enables scalable governance as business and data volumes grow
- Supports digital transformation and modern application initiatives
- Enhances disaster recovery and business continuity planning
- Frees up IT staff from manual archiving and compliance tasks
- Delivers executive visibility with ongoing analytics and insights

Constraints

Requires access to client's current data landscape and IT resources. Compliance dependencies may impact timelines.
