

Unified Data Intelligence Integration Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Unified Data Intelligence Integration Suite

Service Description

A premium consulting service empowering enterprises to unify, integrate and analyse data from diverse sources using a composite data framework for intelligent decision-making.

Features

- End-to-end enterprise data integration architecture assessment
- Design and deployment of composite data frameworks
- Real-time and batch data ingestion from varied sources
- Implementation of intelligent data mapping and transformation
- Automated data quality and cleansing processes
- Support for hybrid and cloud-native data environments
- Configurable analytics and business intelligence dashboards
- Advanced data lineage and governance enablement
- Ongoing performance optimization and managed services
- Robust security and compliance advisory with best practices

Benefits

- Accelerates digital transformation with actionable data insights
- Improves data-driven decision making across the organization
- Reduces data silos by connecting disparate systems seamlessly
- Enhances data quality and trust with automated validation
- Optimizes operational efficiency through process automation
- Future-proofs architecture for scalability and hybrid cloud
- Empowers compliance with regulatory and internal policies
- Enables faster time-to-value with proven implementation methods
- Delivers ongoing support, monitoring, and enhancement options
- Drives competitive edge with intelligent, unified data views

Constraints

Requires access to source systems and stakeholder input; custom integrations may affect timelines.
