1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Service Offering AWS CloudOps Assessment Service

Service Description

Insight's AWS CloudOps Assessment Service is designed to support organisations with reviewing their AWS environment to ensure it follows AWS' best practices. The service is a focussed assessment aligned to the AWS Well-Architected Framework – it provides an actionable and costed remediation plan for optimising an organisation's AWS environment.

Service Overview

Whether you are thinking about migrating to the cloud or already running workloads in the cloud, our AWS Cloud Ops Assessment service will help you optimise your people, processes and technologies used to deliver your workloads on AWS.

The assessment is conducted by a team of AWS-certified experts, who will provide an overview of your current architecture and processes, discuss your design decisions with you, identify critical needs, and recommend improvements that will align your architecture to industry best practice.

Service Summary

The road to a well architected AWS environment begins with choosing the right partner. Our AWS CloudOps Assessment Service will help you sort through the features and functionality of AWS cloud in order to design and plan future implementations to the AWS Cloud, as well as educate, review, and provide recommendations of Best Practices for your AWS environment.

Based on the five pillars of Operational Excellence, Security, Reliability, Performance Efficiency and Cost Optimisation. we will engage in a constructive discussion around the design principles for each pillar to help you understand the current state of your architecture against industry standards. If any gap is identified, we will propose a set of remediation activities that can be implemented to optimise your AWS environment.

Our approach				
We follow a proven five-step process to deliver the AWS CloudOps Assessment, based on the AWS Well Architected Review.				
Engage	Prepare	Assess	Review	Remediate
Sign off T&Cs and NDA	Identify workload and business objectives - Gather inventory data and planning (using CloudCheckrif possible) - Agree Review Session details	- Workshop - Overview of current architecture - Q&A on architecture - WAR Tool completion - Gather information from prepare phase and WAR Tool output/ workshop notes - Generate detailed report and recommendations	- Agree improvement items - Review with customer and prioritise remediation activities	- Execute remediation activities - Generate report of the changes - Deactivate credentials - Apply service credits
				Optional Service

Insight AWS Practice

Insight **AWS** Practice

- Global Scale and Reach
– US, UK / EMEA and APAC
