

Unified Digital Workspaces for Employee Productivity

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Unified Digital Workspaces for Employee Productivity

Service Description

A consulting service to design, deploy, and optimise integrated digital workspaces that streamline employee content management and collaboration for medium to large enterprises.

Features

- End-to-end design and implementation of digital employee workspaces
- Integration of content workflow and document management tools
- Customizable workspace templates tailored to business requirements
- Secure access controls and role-based permissions
- Automated business process workflows and notifications
- Real-time collaboration features for teams and departments
- Employee self-service portals with intuitive user experience
- Consolidated dashboards for task and content tracking
- System integration with enterprise applications (e.g., HR, Finance)
- Ongoing optimization and support for workspace enhancements

Benefits

- Boosts employee productivity through consolidated digital tools
- Streamlines content access, sharing, and lifecycle management
- Reduces manual work and repetitive administrative tasks
- Improves collaboration among distributed and hybrid teams
- Enhances compliance with robust access and audit controls
- Adapts rapidly to organizational growth or change
- Enables scalable onboarding for new hires and teams
- Drives digital adoption and user satisfaction
- Delivers actionable insights via analytics dashboards
- Minimizes IT maintenance overhead with centralized management

Constraints

Requires integration with existing IT systems; user adoption depends on effective change management.
