

Intelligent Document Workflow Transformation

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Document Workflow Transformation

Service Description

Streamline and modernise enterprise document lifecycles with tailored digital workflows. Ideal for organisations seeking efficiency, compliance, and collaboration in document management.

Features

- End-to-end document digitisation and automated workflow design
- Integration with leading enterprise content management platforms
- Automated content capture, metadata tagging, and indexing
- Role-based access controls and user management
- Custom approval and review workflow configuration
- Audit trails and comprehensive compliance reporting
- Automated versioning and document lifecycle management
- Collaboration features for secure internal and external sharing
- Seamless migration from legacy document systems
- Dashboards and analytics for real-time workflow insights

Benefits

- Accelerates business processes by reducing manual document handling
- Improves regulatory compliance and traceability of all documents
- Enhances collaboration across departments and external partners
- Reduces operational costs associated with paper and manual workflows
- Ensures data security with robust access and permission controls
- Minimises errors via automated workflows and validation steps
- Boosts employee productivity through intuitive digital interfaces
- Facilitates seamless remote and hybrid working scenarios
- Provides actionable insights for continuous process improvement
- Supports scalability to accommodate growing document volumes

Constraints

Requires integration with compatible content management systems; customisation subject to platform capabilities.
