

Enterprise Content Management Transformation Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Content Management Transformation Suite

Service Description

Comprehensive consulting to design, deploy, and optimise enterprise content management systems for large organisations seeking to control, secure, and automate information workflows.

Features

- In-depth content lifecycle analysis and strategic roadmap development
- Tailored ECM platform selection and architectural advisory
- Implementation of document capture, indexing, and metadata standards
- Automated workflow and approval process design
- Integration with collaboration, email, and business applications
- Information classification, retention, and compliance configuration
- User access controls and advanced security policy enforcement
- Migration planning and execution from legacy systems
- Change management, adoption training, and support
- Performance monitoring and continuous ECM environment optimisation

Benefits

- Achieve greater governance and regulatory compliance across content repositories
- Boost workforce productivity via streamlined document workflows
- Reduce operational risk with robust content security and access controls
- Lower costs by automating manual content management processes
- Accelerate business decisions through quick, secure access to information
- Ensure seamless integration with core enterprise applications
- Support organisational agility by centralising and standardising content
- Facilitate remote and hybrid work with secure content collaboration tools
- Deliver a scalable platform for future content and workflow expansion
- Improve user satisfaction through intuitive systems and comprehensive support

Constraints

Requires stakeholder engagement, existing infrastructure analysis, and commitment to change management.
