

Real-Time Data Flow & Event Integration Excellence

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Real-Time Data Flow & Event Integration Excellence

Service Description

Consulting and implementation for organizations needing robust, scalable event-driven data integration and stream processing to enable agile, real-time business operations.

Features

- Comprehensive event stream analysis and solution architecture design
- Selection and deployment of leading stream processing platforms
- Custom development of event-driven integration pipelines
- Integration of diverse systems using real-time connectors and adapters
- Automated orchestration of dataflows for seamless business process alignment
- Robust monitoring and alerting for event and data stream health
- Scalable infrastructure provisioning and optimization guidance
- Security and compliance best practices for data in motion
- Knowledge transfer and enablement workshops for client teams
- Managed support and continuous improvement roadmap planning

Benefits

- Unlocks rapid decision-making with instant data and event visibility
- Accelerates digital transformation through seamless integration
- Drives operational efficiency with automated, real-time workflows
- Reduces business risk by improving data accuracy and timeliness
- Future-proofs architecture for evolving business requirements
- Improves customer engagement via event-driven personalization
- Enhances scalability to process surging data volumes
- Strengthens data governance and compliance in real time
- Empowers internal teams with expert-led upskilling
- Enables robust, proactive support for mission-critical operations

Constraints

Requires access to client data sources and stakeholder availability during solution design.
