

Enterprise Application Server Platform Optimization

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Application Server Platform Optimization

Service Description

Comprehensive consulting for organizations seeking robust, scalable, and secure deployment-centric application server platforms.

Features

- End-to-end assessment of current application server infrastructure
- Strategic roadmap design for server platform modernization
- Security audit and compliance alignment for platform environments
- Performance tuning and capacity planning for enterprise workloads
- Migration support for legacy applications onto modern platforms
- Resilience engineering and high-availability architecture design
- DevOps enablement, automation, and CI/CD pipeline integration
- Cost optimization and license management advisory
- Vendor-neutral technology evaluation and selection
- Ongoing platform lifecycle management and innovation workshops

Benefits

- Accelerates reliable deployment of critical business applications
- Reduces infrastructure costs through targeted optimization
- Boosts platform security to meet compliance demands
- Delivers greater application uptime and resilience
- Enables flexible scaling in response to business growth
- Modernizes operations for cloud-readiness and agility
- Simplifies management with automation and best practices
- Mitigates risk via proven migration and transition strategies
- Future-proofs technology investment through expert guidance
- Enhances end-user experiences with improved application performance

Constraints

Requires access to application server environments and stakeholder participation in workshops.
