

Secure Multi-Cloud Implementation

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Secure Multi-Cloud Implementation

Service Description

Our service secures multi-cloud environments by providing comprehensive visibility, continuous security assessments, and proactive risk prioritization across Azure, AWS, and Google Cloud. Leveraging Microsoft Defender for Cloud, we simplify posture management, enhance compliance, and deliver contextual insights from development to runtime, supported by expert guidance for robust, integrated cloud security.

Features

- Simplifies and connects cloud security posture management
- Provides visibility and control to secure cloud workloads
- Delivers insights, recommendations, and support for improvement
- Cloud Security Posture Management with secure score assessment
- Comprehensive visibility across Azure, AWS, Google Cloud, on-premises
- Continuous security assessment of multi-cloud resources
- Proactively identifies and prioritizes critical security risks
- Contextual insights from development to runtime for risk reduction

Benefits

- Improves overall cloud security posture across environments
- Provides comprehensive visibility of multi-cloud and hybrid resources
- Continuously assesses security across Azure, AWS, Google Cloud
- Reduces risk by prioritizing critical vulnerabilities proactively
- Delivers contextual insights from development to runtime phases
- Access to skilled security experts for remediation support
- Simplifies management of complex multi-cloud security configurations
- Strengthens compliance and governance across cloud environments
- Supports faster response to emerging threats and misconfigurations

Constraints

Support and delivery are provided remotely, not on-site.

This service supports Microsoft Defender for Cloud only, but works across all major cloud providers.
