Accelerated Application Innovation Platform Advisory

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- Innovation, Data & AI: we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- Modern Infrastructure & Cloud: Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- Modern Workplace: Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- Cybersecurity: Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- Modern Apps: Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- Consulting (Architecting the Future): We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- Lifecycle (Seamless Execution): We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- Managed Services (Always-On Support): Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Accelerated Application Innovation Platform Advisory

Service Description

Expert consulting to architect, optimise, and enable enterprise-grade application development using leading PaaS tools and environments.

Features

- Strategic assessment of organisational application development objectives and needs
- Design of cloud-native development environments tailored to client requirements
- Selection and implementation guidance for optimal development languages and frameworks
- Advisory on automated CI/CD pipelines for accelerated release cycles
- Integration of advanced DevOps practices to streamline lifecycle management
- Enablement of scalable, secure, and compliant application environments
- Coaching on best-in-class developer toolchains and productivity enhancers
- Governance frameworks for source control, code quality, and collaboration
- Adoption roadmap for PaaS-driven innovation across hybrid and multi-cloud scenarios
- Performance and cost optimisation advisory for ongoing platform value

Benefits

- Faster delivery of innovative business applications to market
- Reduced development and operational overheads through modern PaaS platforms
- Future-proof application architectures supporting rapid scale and change
- Empowered developer teams with cutting-edge tools and environments
- Mitigated risks via built-in security and compliance best practices
- Greater agility for responding to evolving customer and market demands
- Improved software quality through integrated testing and governance
- Lower total cost of ownership for the application lifecycle
- Enhanced collaboration across development, operations, and business stakeholders
- Guided transformation from legacy development to cloud-first practices
