G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Information Protection

Service Description

Unprotected data exposes organizations to leaks, regulatory penalties, and reputational harm. Microsoft 365 Information Protection applies sensitivity labels, encryption, and access controls to safeguard content across apps and devices—resolving compliance gaps, preventing unauthorized sharing, and ensuring secure collaboration without disrupting productivity

Features

- Discover sensitive data across cloud, on-premises, and endpoints
- Classify data using built-in or custom sensitive information types
- Apply sensitivity labels for consistent protection across apps and devices
- Encrypt documents, emails, and Teams meetings automatically
- Use trainable classifiers for AI-powered data identification
- Prevent data loss with Microsoft Purview DLP policies
- Enable message encryption for secure email communication
- Monitor user activity with Content Explorer and Activity Explorer
- Extend protection to non-Microsoft apps via SDK connectors
- Support governance with retention labels and lifecycle management

Benefits

- Protects sensitive data across cloud, on-premises, and endpoints
- Ensures compliance with global regulations and industry standards
- Reduces risk of data breaches and unauthorized access
- Supports secure collaboration across Microsoft 365 apps and services
- Automates classification and labeling for consistent data protection
- Improves visibility with advanced monitoring and reporting tools
- Integrates seamlessly with Microsoft Purview for unified governance
- Enhances productivity without compromising security or compliance

- Extends protection to third-party apps and external sharing
- Enables proactive risk mitigation through AI-driven insights
