

Seamless Cloud Integration Suite

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Seamless Cloud Integration Suite

Service Description

End-to-end integration platform consulting for enterprises seeking unified, orchestrated cloud applications and data flows.

Features

- Comprehensive cloud integration assessment and roadmap creation
- Design and deployment of scalable integration platforms
- Automated orchestration across multiple cloud and on-prem systems
- Robust API management and lifecycle governance
- Custom adapter development for legacy and modern applications
- Real-time monitoring and health analytics dashboards
- Secure data transformation and in-flight encryption services
- Continuous integration and deployment pipelines for integrations
- Best-practice-driven workflow and process automation
- Ongoing optimization and managed support services

Benefits

- Accelerate time-to-value for digital transformation initiatives
- Reduce operational silos and improve cross-system visibility
- Enhance security posture with centralized data controls
- Minimize integration downtime through proactive monitoring
- Increase agility for business process automation
- Lower IT overhead via standardization and automation
- Enable seamless scaling as business requirements evolve
- Facilitate compliance with industry data regulations
- Boost productivity with unified data and API access
- Drive innovation by unlocking integrated data insights

Constraints

Requires access to relevant cloud platforms and legacy systems; client resources for stakeholder alignment.
