

Optimised Network Application Delivery Assurance

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Optimised Network Application Delivery Assurance

Service Description

Expert consulting for enterprises seeking resilient, high-performing network application delivery. Tailored for organisations requiring secure, scalable, and seamless infrastructure software to elevate user experiences and operational agility.

Features

- Comprehensive assessment of current network application delivery environment
- Customised design of application delivery architecture and workflows
- End-to-end implementation of advanced delivery controllers and gateways
- Application acceleration and traffic optimisation strategies
- Embedded security controls for application integrity and data protection
- Seamless integration with hybrid and multi-cloud infrastructure platforms
- Automated deployment and configuration management processes
- Continuous performance monitoring and SLA-driven reporting dashboards
- Proactive incident detection with root cause analysis and remediation
- Expert training and documentation for operational excellence

Benefits

- Accelerates application performance for end-users across all locations
- Reduces downtime and speeds up incident resolution dramatically
- Minimises security threats with advanced, built-in protections
- Improves scalability to handle unpredictable business or user growth
- Ensures compliance with industry-specific regulations and standards
- Delivers consistent user experiences, driving satisfaction and retention
- Optimises infrastructure costs via resource-efficient application delivery
- Enables agile deployment and rapid adaptation to business needs
- Enhances operational insights with real-time dashboards and analytics
- Empowers teams through comprehensive knowledge transfer and upskilling

Constraints

Requires compatible infrastructure and collaboration with client IT teams for deployment.
