

Cloud Quality Excellence: Performance Assurance Accelerator

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Quality Excellence: Performance Assurance Accelerator

Service Description

A premium consulting service delivering comprehensive quality and performance assurance for cloud environments, tailored for IT leaders seeking robust, reliable, and scalable cloud operations.

Features

- End-to-end cloud performance assessment and benchmarking process
- Custom test planning including load, stress, and scalability scenarios
- Automated cloud workload simulation for realistic user conditions
- Bespoke reporting on bottlenecks and performance pain points
- Remediation recommendations for architectural and configuration flaws
- Continuous quality validation through iterative test cycles
- Integration with CI/CD pipelines for ongoing performance monitoring
- Expert facilitation of stakeholder workshops and KPI alignment
- Risk evaluation for cloud migration and transformation projects
- Actionable roadmap for sustained cloud performance optimization

Benefits

- Accelerates identification and resolution of cloud performance issues
- Reduces risk of costly downtime and scalability failures
- Enables data-driven decisions for cloud investments
- Improves user experience with proven reliability enhancements
- Optimizes cloud resources for cost efficiency and sustainability
- Establishes clear quality baselines and measurable KPIs
- Enhances stakeholder confidence in cloud transformation initiatives
- Shortens time-to-value for new cloud deployments
- Supports compliance with industry standards and best practices
- Drives continuous service improvement and innovation in the cloud

Constraints

Requires access to target cloud environments and stakeholder availability for workshops.
