

Cloud Migration Architecture Blueprint & Options Analysis

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Migration Architecture Blueprint & Options Analysis

Service Description

A strategic consulting service delivering tailored cloud migration architectures and objective options analysis for organisations planning to move workloads to the cloud.

Features

- Comprehensive current-state environment assessment and workload inventory
- Tailored cloud migration strategy aligned to business objectives
- Objective analysis of public, private, and hybrid architecture options
- Risk identification and mitigation planning for cloud transitions
- Total cost of ownership (TCO) modelling for each architecture scenario
- Security, compliance, and governance requirements mapping
- Vendor-neutral solution recommendations and platform comparisons
- Application dependency mapping and migration sequencing
- High-level cloud architecture design and visual documentation
- Detailed migration roadmap with actionable recommendations

Benefits

- Informed decision-making based on expert, objective analysis
- Reduced transformation risk via comprehensive planning
- Clarity on most suitable cloud architecture for organisation
- Improved alignment between IT and business strategy
- Cost transparency supporting robust business case development
- Minimised service disruptions during migration execution
- Enhanced security posture and regulatory compliance alignment
- Faster migration timelines through structured planning
- Optimised workload placement for performance and resilience
- Vendor-agnostic recommendations ensuring client-centric outcomes

Constraints

Requires access to current IT environment, key stakeholders, and accurate workload data.
