

Intelligent eDiscovery & Forensic Content Management Service

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent eDiscovery & Forensic Content Management Service

Service Description

A consulting solution for organisations to efficiently manage, discover, and investigate digital content across platforms for legal, compliance, and operational needs.

Features

- Comprehensive digital content identification and classification workflows
- Automated forensic evidence collection and chain-of-custody tracking
- Advanced search, filtering, and metadata extraction tools for rapid data discovery
- Integration with enterprise content management and email platforms
- Real-time monitoring and policy enforcement for content retention
- Customizable audit trails and regulatory compliance reporting
- Secure role-based access controls and user activity logging
- Consultative readiness assessments and risk exposure analysis
- Seamless support for multiple content types and file formats
- End-to-end support from workflow design to remediation and litigation response

Benefits

- Reduces time and cost of legal discovery and investigations
- Mitigates regulatory, legal, and operational risks proactively
- Ensures defensible, auditable handling of sensitive data
- Improves enterprise compliance with industry data standards
- Accelerates incident response with streamlined evidence handling
- Enhances collaboration between legal, compliance, and IT teams
- Boosts user confidence with transparent processes and reporting
- Supports scalability for large volumes and diverse content sources
- Customizes solutions to unique organizational policies and needs
- Facilitates successful outcomes in litigation and internal reviews

Constraints

Requires integration with existing content repositories; enterprise IT involvement essential.
