

Integrated CAD Solutions Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Integrated CAD Solutions Enablement

Service Description

A consulting service for engineering teams seeking end-to-end design transformation through strategic Computer-Aided Design (CAD) application deployment, optimisation, and user adoption.

Features

- Comprehensive CAD workflow assessment and requirements gathering
- Tailored CAD application selection and licensing guidance
- Seamless implementation and systems integration with legacy platforms
- Automated configuration and custom template development
- User-centric interface customization for optimal productivity
- Targeted end-user and administrator training programs
- Performance optimization with regular usage analytics
- Security and compliance enhancements for CAD environments
- Ongoing helpdesk and technical support for CAD issues
- Continuous improvement roadmap for CAD capabilities

Benefits

- Accelerates project delivery through optimized design workflows
- Reduces operational costs with right-sized licensing and automation
- Boosts user adoption and proficiency across engineering teams
- Enhances collaboration through tailored integration and templates
- Mitigates risk with reinforced security and compliance frameworks
- Increases productivity via customized CAD user experiences
- Streamlines troubleshooting with proactive technical support
- Delivers measurable ROI through performance analytics
- Ensures technology stays current with industry best practices
- Empowers innovation with a future-ready CAD ecosystem

Constraints

Requires client commitment to process review, IT stakeholder access, and supported CAD platforms.
