

Endpoint Management

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Endpoint Management

Service Description

Managing diverse devices securely is complex. Without effective endpoint management, organizations face compliance risks, data breaches, and productivity loss. Microsoft Intune simplifies control by enforcing policies, securing access, and enabling remote management across platforms—resolving fragmentation, reducing vulnerabilities, and ensuring consistent protection for corporate and BYOD environments

Features

- Web protection policies for safe browsing and phishing defense
- Device compliance monitoring with automated remediation actions
- Security baselines for Windows and Microsoft apps
- Antivirus policy management for Windows and macOS devices
- Attack Surface Reduction (ASR) policies to minimize vulnerabilities
- Application Control to block unauthorized apps
- Account protection for identity and group memberships
- Endpoint Privilege Management for least-privilege access
- Integration with Microsoft Defender for Endpoint for threat detection
- Compliance policies with Conditional Access enforcement

Benefits

- Improves overall device security posture across all endpoints
- Centralizes security management for Windows, macOS, iOS, and Android
- Reduces complexity with unified policies and automation
- Enforces compliance through Conditional Access integration
- Provides real-time threat detection and response capabilities
- Minimizes vulnerabilities via Attack Surface Reduction policies
- Delivers cost savings by consolidating point solutions
- Enhances productivity by securing apps and data seamlessly

- Supports proactive remediation using Defender for Endpoint integration
- Ensures continuous compliance with automated monitoring and updates
