

Cloud Data Structure Blueprint & Migration Accelerator

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Data Structure Blueprint & Migration Accelerator

Service Description

A service for organisations seeking expertly designed, optimised data structures and seamless data migration during cloud adoption.

Features

- Comprehensive assessment of existing data environments and structures
- Bespoke data architecture design aligned to business outcomes
- Seamless migration planning minimising operational disruption
- Advanced data mapping and transformation processes
- Integration with leading cloud platforms (Azure, AWS, GCP)
- Data security policies and compliance frameworks implemented
- Automated tools for data validation and integrity checks
- Stakeholder collaboration and adoption workshops
- Performance optimisation for cloud-hosted datasets
- Detailed post-migration support and documentation

Benefits

- Accelerated cloud adoption through expert data structure design
- Reduced migration risk and business downtime
- Enhanced data consistency, accessibility, and governance
- Futureproofed architecture supporting growth and innovation
- Improved compliance with regulatory and data privacy standards
- Optimised cloud costs via efficient data modelling
- Rapid realisation of cloud value and digital transformation
- Greater confidence in data quality and security post-migration
- Seamless user and stakeholder transition experience
- Access to ongoing expert guidance and support

Constraints

Requires access to source data systems and stakeholder availability for workshops.
