

Unified Data Integration & Intelligence Enablement

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Unified Data Integration & Intelligence Enablement

Service Description

A premium consulting service for enterprises seeking to seamlessly integrate, govern, and leverage data across cloud-native platforms to unlock business insights and drive digital transformation.

Features

- Comprehensive assessment of current data landscape and integration needs
- Design and deployment of scalable, cloud-native data integration pipelines
- Implementation of real-time and batch data ingestion from diverse sources
- Establishment of robust data governance and metadata management frameworks
- Automated data quality monitoring and anomaly detection processes
- Integration of advanced analytics and machine learning capabilities
- Secure management of data access, identity, and compliance requirements
- Custom dashboards for unified visibility of data flow and transformation
- Seamless connectivity between on-premise, multi-cloud, and SaaS data sources
- Ongoing managed support and continuous optimisation of integration solutions

Benefits

- Accelerates digital transformation and data-driven decision making
- Enhances business agility with flexible, scalable data integration architecture
- Reduces manual intervention through automation and process standardisation
- Improves data accuracy, consistency, and trust across the organisation
- Enables actionable insights with advanced analytics and intelligence tools
- Strengthens compliance and risk management for sensitive data flows
- Optimises operational costs via cloud-native efficiency and automation
- Allows rapid onboarding of new data partners and third-party sources
- Boosts collaboration by providing unified, governed access to data assets
- Supports innovation through a future-ready, extensible data platform

Constraints

Requires client cloud readiness and access to source/target systems. Customisation subject to platform compatibility.
