

Intelligent Storage Path Optimization & Management Service

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Storage Path Optimization & Management Service

Service Description

Comprehensive consulting and implementation for enterprises seeking to optimize, secure, and automate storage access across diverse infrastructures.

Features

- End-to-end assessment of existing storage access environments
- Design and deployment of advanced path management solutions
- Automated multipathing configuration and failover setup
- Integration with SAN, NAS, and cloud storage technologies
- Policy-driven access control and segmentation
- Performance analytics for storage IO and traffic
- Continuous monitoring and proactive incident alerting
- Seamless upgrades with zero-downtime migration planning
- Comprehensive documentation and knowledge transfer
- 24/7 expert support and ongoing optimization

Benefits

- Maximize storage availability and business continuity
- Reduce risk of data access bottlenecks and failures
- Gain agility through automated access and path management
- Ensure compliance with industry best practices
- Lower operational costs with fewer manual interventions
- Increase visibility into storage resource usage and trends
- Accelerate response time for incidents and capacity changes
- Empower IT teams with clear documentation and training
- Future-proof storage investments with scalable architectures
- Rely on expert guidance for ongoing performance tuning

Constraints

Requires access to existing storage infrastructure, IT stakeholder engagement, and defined security policies.
