

Strategic Asset Lifecycle Excellence

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Strategic Asset Lifecycle Excellence

Service Description

End-to-end asset lifecycle management consulting for organisations seeking to optimise utilisation, compliance and value across physical and digital assets.

Features

- Comprehensive asset inventory and categorisation for full visibility
- Lifecycle cost analysis to identify optimisation opportunities
- Automated tracking and monitoring of asset conditions
- Asset depreciation and end-of-life scenario planning
- Compliance management and regulatory reporting support
- Custom workflow integration with ERP and resource systems
- Risk assessment and mitigation strategies for critical assets
- Best practice asset data governance and documentation
- Stakeholder workshops to define asset management strategy
- Training on asset management tools and change enablement

Benefits

- Enhances asset utilisation and reduces unnecessary expenditure
- Improves compliance to internal and external regulations
- Drives informed investment and divestment decisions
- Extends useful life of assets through proactive management
- Increases operational agility and reduces downtime risk
- Optimises total cost of ownership across asset portfolio
- Enables confident scaling and digital transformation efforts
- Simplifies regulatory audits and reduces compliance risk
- Empowers teams with clear processes and accountability
- Delivers measurable ROI through smarter asset strategies

Constraints

Requires access to current asset data, stakeholder input, and ERP integration capabilities.
