

Real-Time Event Stream Integration Platform Services

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Real-Time Event Stream Integration Platform Services

Service Description

A consulting-led service delivering scalable, secure event stream processing for enterprises seeking seamless cloud integration, orchestration, and actionable real-time data insights.

Features

- Design and implementation of cloud-native event streaming architectures
- Integration of multiple data sources and legacy applications
- Setup of secure, scalable event brokers and stream processors
- Development of custom stream processing pipelines and logic
- Automated system orchestration for rapid scaling and failover
- Continuous monitoring and alerting for event stream health
- Data transformation and enrichment in real time
- Hands-on enablement and training for client teams
- Support for compliance and security best practices
- End-to-end advisory and lifecycle management

Benefits

- Accelerate digital transformation with seamless data integration
- Enable real-time decision-making from streaming data flows
- Reduce integration bottlenecks and accelerate cloud adoption
- Enhance scalability and resilience of business-critical systems
- Empower teams with actionable data insights instantly
- Protect business data with robust security frameworks
- Future-proof architecture supports emerging use cases
- Faster go-to-market for new products and services
- Lower total cost of ownership with cloud-first designs
- Ongoing expert support for continuous improvement

Constraints

Requires cloud platform readiness and client commitment to integration standards.
