

Cloud Migration Project Leadership & Governance Suite

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Migration Project Leadership & Governance Suite

Service Description

Comprehensive project management and governance for cloud set up and migration, designed for organisations seeking seamless, compliant, and risk-mitigated transitions.

Features

- Dedicated project management oversight throughout cloud migration lifecycle
- Stakeholder alignment through structured governance frameworks
- Risk identification and mitigation planning for all migration stages
- Transparent progress tracking with regular project status reporting
- Cross-functional team coordination for on-time deliverables
- Custom governance models tailored to business and compliance needs
- Escalation management and issue resolution protocols
- Change management integration for smooth adoption
- Post-migration review and lessons-learned workshops
- Continuous improvement recommendations for future migrations

Benefits

- Accelerated migration with reduced operational disruptions
- Enhanced executive confidence with transparent project updates
- Smarter decision-making enabled by risk visibility and controls
- Compliance with industry regulations throughout migration
- Improved collaboration among technical and business teams
- Proactive problem resolution minimizes project delays
- Clear accountability for tasks, timelines, and deliverables
- Easier change adoption and minimized resistance across staff
- Repeatable governance practices for future cloud projects
- Greater assurance of meeting business transformation objectives

Constraints

Requires client-side stakeholder engagement and timely decision-making; scope limited to cloud migration projects.
