

Intelligent Backup Reporting & Resilience Advisory

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Backup Reporting & Resilience Advisory

Service Description

Expert consulting for organisations seeking advanced analytics and governance of backup and recovery operations, strengthening data protection and audit compliance.

Features

- Comprehensive assessment of current backup reporting architectures
- Design and implementation of automated reporting dashboards
- Integration with diverse backup and storage environments
- Real-time monitoring of backup and recovery status
- Customisable alerting and exception management workflows
- Regulatory compliance mapping and audit trail enablement
- Analytics on backup success rates, durations, and anomalies
- Optimisation recommendations for scheduling and capacity planning
- User role-based access and reporting controls
- Knowledge transfer and administrator training workshops

Benefits

- Enhanced visibility into backup and recovery performance metrics
- Faster issue identification and root-cause analysis for failures
- Demonstrably improved regulatory and audit compliance posture
- Reduced risk of data loss and prolonged outages
- Streamlined internal reporting for IT and business stakeholders
- Proactive optimisation of backup resource utilisation
- Easier evidence gathering for legal and compliance reviews
- Lower administrative burden via automation and dashboards
- Clear accountability with role-based reporting insights
- Empowered IT teams through targeted training and best practices

Constraints

Requires access to existing backup systems, reporting APIs, and key technical stakeholders.
