

Endpoint Security & EDR Implementation

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Endpoint Security & EDR Implementation

Service Description

Insight's Microsoft Endpoint Security & EDR Implementation Service accelerates deployment, optimizes configurations, and strengthens defenses against evolving cyber threats. Through structured planning, validation, and rollout, it enhances visibility, reduces risk, and ensures compliance. Comprehensive documentation and handover empowers organizations to maintain robust, proactive endpoint security.

Features

- Endpoint Security & EDR Implementation
- Accelerated implementation minimizing risks and operational disruption
- Expert guidance for optimizing endpoint security configurations
- Greater visibility into endpoint security posture
- Proactive defense against evolving cyber threats and attacks
- Comprehensive planning with stakeholder engagement and scope validation
- Detailed design and advanced configurations for security components
- Onboarding additional devices and integrating into existing operations
- Clear documentation of architecture, installation, and configuration steps

Benefits

- Reduces deployment times with accelerated implementation process
- Minimizes business risk and operational disruption during rollout
- Optimizes endpoint security configurations for maximum protection
- Improves visibility into endpoint security posture
- Enhances proactive defense against evolving cyber threats
- Validates solution to meet defined requirements and success criteria
- Streamlines onboarding of additional devices into operations
- Supports integration with managed services for ongoing security

Constraints

Support and delivery are provided remotely, not on-site.
This service supports Microsoft Defender for Endpoint only.
