

Enterprise Operating System Modernisation & Management

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Operating System Modernisation & Management

Service Description

Transform and optimise core operating system environments for enterprises seeking secure, reliable, and scalable IT foundations.

Features

- Comprehensive OS lifecycle management across physical and virtual platforms
- Automated deployment of system updates and security patches
- Integration with enterprise directory and identity management systems
- Standardisation of OS images for rapid provisioning
- Continuous performance and availability monitoring of OS environments
- Hardening and compliance configuration to industry benchmarks
- Customised migration planning and execution for legacy systems
- Centralised dashboard for real-time status and analytics
- Integration with backup, disaster recovery, and failover solutions
- 24/7 expert support and proactive incident resolution

Benefits

- Enhances stability and reliability of business-critical operations
- Reduces IT risk by ensuring timely security patching
- Accelerates new system provisioning and employee onboarding
- Strengthens compliance with internal and regulatory standards
- Improves visibility into OS health and resource utilisation
- Streamlines migration from unsupported or legacy platforms
- Boosts agility to support business changes and growth
- Minimises downtime through proactive support and monitoring
- Lowers operational costs via automation and standardisation
- Frees IT teams to focus on innovation, not routine maintenance

Constraints

Applicable to supported enterprise OS; client participation required for legacy migrations.
