

Intelligent Database Platform Enablement

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Database Platform Enablement

Service Description

Expert-led database administration and development for organizations leveraging PaaS for secure, scalable data operations.

Features

- Comprehensive database health assessment and optimization recommendations
- End-to-end setup and configuration of cloud-native database services
- Automated backup, recovery, and high availability implementation
- Performance monitoring and proactive tuning for mission-critical workloads
- Security hardening and access control aligned to compliance standards
- Seamless migration of on-premises databases to leading PaaS providers
- Ongoing database lifecycle management and patching automation
- Advanced analytics, reporting, and dashboarding integration
- Custom development of stored procedures, triggers, and automation scripts
- Strategic roadmap for data growth, scalability, and operational resilience

Benefits

- Accelerated digital transformation via modern, scalable database platforms
- Reduced risk of downtime through managed backup and disaster recovery
- Optimized performance ensuring faster, more reliable business insights
- Strengthened data protection meeting regulatory and compliance mandates
- Lower operational overheads by leveraging automation and expert oversight
- Future-proofed database infrastructure supporting organizational growth
- Streamlined migration minimizing disruption and data loss risks
- Enhanced security posture with continuous monitoring and patching
- Improved stakeholder satisfaction via reliable reporting and analytics
- Increased agility to rapidly adapt to evolving data requirements

Constraints

Requires access to client PaaS environment and data sources; excludes on-premises-only setups.
