

Hyperconverged Storage Architecture & Enablement Service

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Hyperconverged Storage Architecture & Enablement Service

Service Description

A premium consulting service for enterprises seeking to design, implement, and optimize hyperconverged software-defined storage solutions for scalable, resilient, and efficient IT environments.

Features

- End-to-end assessment of current storage architecture and future readiness
- Solution design leveraging leading hyperconverged storage platforms
- Integration planning with existing infrastructure and workloads
- Workload analysis to optimize storage performance and efficiency
- Automated provisioning and orchestration of storage resources
- Policy-driven data protection and disaster recovery configuration
- Comprehensive implementation and migration support
- Advanced monitoring, reporting, and health checks for storage environments
- Skill transfer through technical workshops and documentation
- Governance, compliance, and best practice frameworks included

Benefits

- Accelerates digital transformation through modernized storage foundations
- Improves scalability to respond rapidly to changing business needs
- Reduces complexity by consolidating storage and compute resources
- Enhances data availability and business continuity
- Optimizes infrastructure costs through better resource utilization
- Enables agile deployment of new workloads and applications
- Boosts IT operational efficiency with automation and self-service
- Provides a single pane of glass for storage management
- Ensures compliance with industry standards and regulations
- Empowers in-house teams with knowledge for ongoing success

Constraints

Requires compatible hardware and virtualization stack; client IT participation mandatory.
