

Zero Trust Network Access Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Zero Trust Network Access Enablement

Service Description

Comprehensive consulting to design, implement, and manage secure, trusted network access for organizations seeking to safeguard infrastructure and users from evolving cyber threats.

Features

- Assessment of current network security posture and risk areas
- Development of Zero Trust strategy tailored to organizational needs
- Implementation of identity-based network access controls
- Integration with multi-factor authentication solutions
- Real-time monitoring and alerting for suspicious activities
- Segmentation of critical assets and sensitive data
- Policy-driven access management across on-premises and cloud
- End-to-end encryption for all user and device traffic
- Ongoing compliance and regulatory alignment consultation
- Comprehensive knowledge transfer and documentation support

Benefits

- Reduces attack surface with precise access restrictions
- Strengthens regulatory compliance and audit readiness
- Enhances user and device authentication robustness
- Improves detection and response to insider threats
- Minimizes business disruption from breaches and malware
- Enables secure remote work and hybrid environments
- Provides ongoing visibility into network access events
- Streamlines policy management across diverse platforms
- Accelerates adoption of digital transformation securely
- Builds a future-proof foundation for adaptive security

Constraints

Requires client participation in workshops; existing infrastructure may require upgrades.
