

Rapid Application Build & Enablement Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Rapid Application Build & Enablement Suite

Service Description

Accelerate development with expert guidance on languages, environments, and tools for enterprises seeking modern software solutions.

Features

- Consultative selection of optimal development languages for business needs
- Comprehensive assessment of existing development environments and toolchains
- End-to-end setup and configuration of modern IDEs and frameworks
- Integration of automated testing and build pipelines
- Deployment of best practice version control and collaboration platforms
- Establishment of secure development workflows and environment governance
- Toolchain optimization for performance and scalability
- Custom developer onboarding and enablement program
- Continuous integration and deployment enablement (CI/CD)
- Ongoing support and advisory on evolving language and tool trends

Benefits

- Faster time-to-market for new digital products and updates
- Reduced risk through standardized, secure development practices
- Enhanced team productivity via tailored toolchain choices
- Increased developer satisfaction and retention
- Lowered operational costs by eliminating tool inefficiencies
- Future-proofing applications through modern language adoption
- Improved code quality from automated testing and integration
- Adaptability to changing business and technical requirements
- Seamless collaboration across distributed or hybrid teams
- Expert support ensures continuous value and best practices

Constraints

Relies on client commitment to process change; initial environment assessment required.
