

Cloud Readiness Gap Assessment & Migration Strategy

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Readiness Gap Assessment & Migration Strategy

Service Description

A comprehensive analysis and roadmap service for organisations planning cloud migration, identifying gaps, risks, and opportunities to ensure seamless, secure, and efficient transformation.

Features

- Comprehensive current-state cloud infrastructure assessment and documentation
- Gap analysis aligned with industry cloud adoption frameworks and best practices
- Detailed risk identification and mitigation planning for migration scenarios
- Workload suitability analysis to determine cloud migration readiness
- Security baseline comparison, including misconfiguration and compliance checks
- Dependency mapping for applications, data, and legacy systems
- Prioritization of remediation actions for identified gaps and risks
- Tailored migration strategy and phased roadmap development
- Stakeholder workshops to build cloud adoption consensus and clarity
- Executive summary with actionable recommendations and investment options

Benefits

- Accelerates and de-risks cloud migration initiatives organization-wide
- Identifies and resolves costly misconfigurations before migration begins
- Enables informed decision-making through clear migration roadmaps
- Enhances security and compliance posture across cloud environments
- Maximizes ROI by prioritizing high-impact remediation actions
- Ensures business continuity and application performance during transition
- Uncovers hidden dependencies that could delay or disrupt cloud projects
- Strengthens alignment between IT, security, and business leadership
- Provides actionable next steps for continuous cloud optimization
- Lays a strong foundation for scalable, future-ready cloud operations

Constraints

Requires access to current IT, security, and application environment data. Stakeholder engagement essential.
