

Intelligent Document Database Solutions

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Document Database Solutions

Service Description

Comprehensive consulting and deployment of document-oriented databases for organisations seeking agile, scalable, and unstructured data management in application environments.

Features

- Custom architecture design tailored to enterprise document data needs
- End-to-end implementation of leading document-oriented database platforms
- Seamless migration of legacy documents and data into new systems
- Integration with enterprise applications and existing workflows
- Schema-less data modeling for evolving and dynamic document formats
- Optimized for high-volume ingestion, indexing, and retrieval operations
- Built-in security, compliance, and access control frameworks
- Automated backup, recovery, and disaster resilience strategies
- Performance tuning for low-latency search and analytics workloads
- Comprehensive training and ongoing technical support post-deployment

Benefits

- Accelerate time-to-insight with flexible document data structures
- Reduce operational complexity with expert-led architecture and deployment
- Enable rapid scaling to meet unpredictable data growth demands
- Enhance application agility for evolving business requirements
- Facilitate seamless integration with modern application stacks
- Improve data security and regulatory compliance posture
- Minimize downtime risk through automated resilience features
- Empower teams with hands-on training and best practices
- Boost productivity by simplifying unstructured data management
- Gain competitive edge via advanced search and analytics capabilities

Constraints

Requires enterprise IT buy-in, sufficient infrastructure resources, and defined data governance models.
