

AI-Powered Enterprise Knowledge Discovery Platform Consulting

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

AI-Powered Enterprise Knowledge Discovery Platform Consulting

Service Description

Transform enterprise data into actionable insights with tailored AI search and knowledge discovery solutions for large organizations seeking smarter information access.

Features

- Comprehensive assessment of data sources and information architecture
- Design and deployment of AI-driven search and discovery platforms
- Customizable natural language search capabilities
- Integration with existing enterprise collaboration tools
- Scalable cloud-native platform implementation
- Configuration of advanced analytics and knowledge graphing
- Security and compliance alignment for sensitive information
- User training and enablement workshops
- Ongoing monitoring and performance optimization
- Strategic roadmap for continuous AI platform evolution

Benefits

- Accelerates enterprise-wide information retrieval and decision-making
- Unlocks hidden business insights from vast unstructured data
- Boosts productivity with intuitive natural language queries
- Drives collaboration by breaking knowledge silos
- Improves data governance and compliance posture
- Scales with organizational growth and data expansion
- Quickly adapts to changing business requirements
- Reduces operational costs through automation
- Enhances user experience across teams and geographies
- Future-proofs knowledge management with ongoing AI innovation

Constraints

Requires access to enterprise data sources and stakeholder engagement for integration.
