

Identity Security Assessment

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Identity Security Assessment

Service Description

Our Identity Security Assessment evaluates your current identity and access environment, identifies risks, and benchmarks against best practices. We deliver actionable recommendations to strengthen IAM, IGA, PAM, and governance controls, enabling compliance, reducing breach exposure, and supporting Zero Trust strategies for secure, efficient, and future-ready identity management.

Features

- Risk analysis for privileged and orphaned accounts.
- Multi-factor authentication enforcement
- Conditional access policies based on contextual risk signals.
- Role-based access control and least privilege
- Privileged Access Management with secure vaulting and monitoring
- Identity Threat Detection integrated with SOC workflows.
- Scheduled access reviews and certification processes.
- Security awareness training for identity hygiene and phishing prevention.
- Strategic recommendations for zero trust, IAM, IGA and PAM solutions
- Review of Joiner/Mover/Leaver (JML) processes

Benefits

- Reduced risk of breaches through stronger identity controls.
- Compliance with GDPR, NIS2, and other regulations.
- Foundation for Zero Trust security architecture.
- Improved user experience with SSO and passwordless options.
- Operational efficiency via automated identity lifecycle processes.
- Early detection of identity-based threats and anomalies.
- Business continuity through minimized identity-related disruptions.
- Protection of privileged accounts from misuse or compromise.

- Future-ready security aligned with emerging identity trends.
- Enables secure collaboration and innovation across the enterprise.

Constraints

Support and delivery are provided remotely, not on-site.
